

# LASCAS2026

## Call for Special Session Proposals

The submission deadline is **15 August 2025**.

Special Sessions are an integral part of the LASCAS2026 Conference where presenters have the opportunity to share their expertise on a focused or topical research area with fellow researchers and those who wish to discover specific areas. We are soliciting proposals for areas of academic and industrial/applied interest. These areas may be established or emerging and should be interesting and engaging to the attendees.

LASCAS2026 is particularly interested in Special Sessions that are related to the conference themes. Propositions shall be sent to [orazio.aiello@unige.it](mailto:orazio.aiello@unige.it) and [sylvain.bourdel@grenoble-inp.fr](mailto:sylvain.bourdel@grenoble-inp.fr) and must include the special session **title**, **a half page description** of the topic.
