

WAFE

IEEE CAS WORKSHOP
ON AGRIFOOD
ELECTRONICS

CAS
IEEE CIRCUITS AND SYSTEMS SOCIETY

Quito - Ecuador

March 03rd, 2023

Call for Papers

WAFE is the cutting-edge research workshop covering circuits and systems, integrating the needed sensors, actuators and interfaces, applied to the AgriFood chain of value, including technologies for food related to its production, processing, quality control along the distribution chain, and preservation.

Important Dates - **Final Extension!**

Paper Submission: 18th Dec. 2022
Notification of Acceptance: 15th Jan. 2023
Camera Ready: 30th Jan. 2023
Submission Website: <https://www.ieee-lascas.org/>

Papers will be invited to present an extended version on the IEEE Transactions on AgriFood Electronics.

WAFE Scope:
Innovative Electronic
Solutions for:

- Precision Agriculture
- Smart Livestock Farming
- Climate Change and Global Warming Facing
- Reduction of Pesticide
- Optimization of Resource
- Better Food Production
- Food Safety
- Food Processing
- Food Transportation

General Chairs:
Matias Miguez - Universidad Católica del Uruguay
Alberto Sanchez - Universidad San Francisco de Quito

Satellite Workshop, held with:

LASCAS .2023
